

Riley Maintenance Systems

Q3 2026 Environmental Impact Report

Tree-Free™ • Plastic-Free • Toxin Free • Commercially Compostable • Solutions by:

50 Trees
Saved

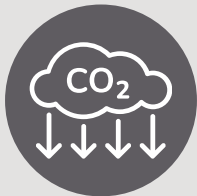

Using Tree-Free™ products means less trees are cut down to make everyday paper products.

51 LBS
Plastic Avoided

Utilizing bioplastic cutlery and liners made from renewable resources leads to less plastic ending up in our oceans and landfills.

88 KG
Carbon Avoided

Reducing carbon emissions helps mitigate climate change, enhance air quality and preserve biodiversity for a healthier and more sustainable environment

11,305 GAL
Water Saved

Reducing water usage helps conserve vital freshwater resources and minimizes the strain on natural ecosystems.

5,685 LBS
Landfill Diverted*

Our compostable products are designed to biodegrade in commercial composting facilities or in bio digesting systems.

*This number assumes you have a composting system in place or are utilizing the Emerald Ecovations Cradle to Cradle Composting System

Helps Reduce
Deforestation

Helps Protect
Ocean Habitats

Helps Reduce
Air Pollution

Helps Protect
Water Supplies

Helps Reduce
Methane Emissions

Our environmental calculator leverages a methodology created by an independent third-party organization to assess the environmental impact of our products.
